

# BRILLIANCE RELAY

CONTROL LANDSCAPE LIGHTING WITH ONE TIMER

Designed specifically for landscape lighting transformers

Plugs directly into 120 VAC outlet

Ensures the entire system is timed the same since they all use the same timing device

Conformal coating circuits protect against humidity

Made for use inside electrical enclosures

ETL Listed in US and Canada

Easy access to instructions via QR code on top

**TECHNICAL REQUIREMENTS:** For indoor use or use in an electrical enclosure, such as a transformer or a junction box. Directly plug in with the main supply.
