# COUNTDOWN
SET UP INSTRUCTIONS

Adding a Countdown Automation to the Smart Socket 3.0

Countdown automations allow you to turn their devices on or off after a set amount of time. The Brilliance Smart app can turn on a Smart Socket 3.0 device if it is off, and it can turn off a Smart Socket 3.0 off if it is off. For example, if you turn lighting on at an unplanned hour, such as the middle of the night, you can use a countdown automation to turn devices off after a period of time you define.
1. Download Brilliance Smart from the Apple App Store or Google Play by scanning the QR code. Register for an account if you are a first time user.

GET IT ON Google Play

Download on the App Store

2. Open the Brilliance Smart app and select the **Smart Socket 3.0** to add a sunrise/sunset automation timer.

Smart Socket 3

3. In the bottom panel, tap **Timer**.

BRILLIANCE
WIFI SMART SOCKET 3
Power On
Power   Timer   Settings

4. At the top of the screen, tap **Countdown**.

4:00
Schedule
Countdown   Schedule   Astronomical

You can set a countdown timer for up to 23 hours and 59 minutes.

Example: Setting the countdown timer to turn off devices in 10 minutes.

**5.** Tap 01m and scroll up to select **10m**.

00 h   01 m
01   02
02   03

00 h   10 m
01   11
02   12

Countdown Set Up - Continued

**6.** At the bottom of the screen, tap the **Start** button**.**

7. The countdown timer will begin. The countdown timer will continue to run in the background of the app. The countdown automation is complete.

*Example completed.*

8. To stop a timer before it completes, tap the **Delete** button at the bottom of the screen.

9. To return to the device page, tap the **Back** button in the upper-left corner.

10. To return to the home page, tap the **Back** button in the upper-left corner.
