

WI-FI SMART SOCKET 3.0 SET UP INSTRUCTIONS

Quick Mode - Alternative Set Up

Use this method to quickly set up a Smart Socket 3.0 device on the Brilliance Smart app with a 2.4GHz Wi-Fi network.

Technical Requirements

Must have consistent 2.4 GHz Wi-Fi signal at the installation location with dBm strength of -70 or better.

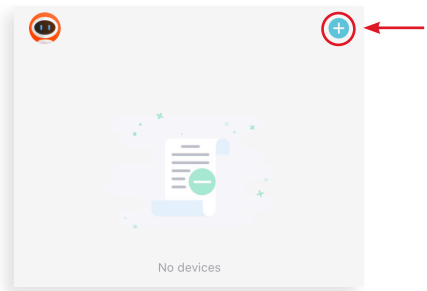

1. Download/open the Brilliance Smart app.

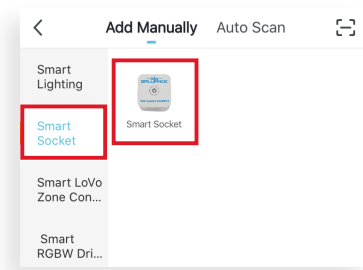

In your phone's settings, **make sure Bluetooth is turned off.**

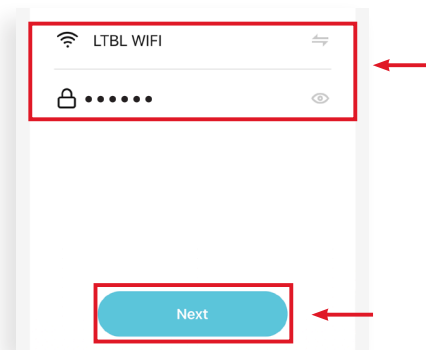

2. On the home screen, tap the **Add** button at the upper-right corner.

3. On the Add Manually screen, tap **Smart Socket** on the left menu and then tap **Smart Socket** in the main window.

4. Enter your 2.4 GHz Wi-Fi network name and password, and then tap **Next**.

NOTE: This step may appear twice. Repeat Step 4 until the screen in Step 5 appears.

Quick Mode Set Up continues on the next page

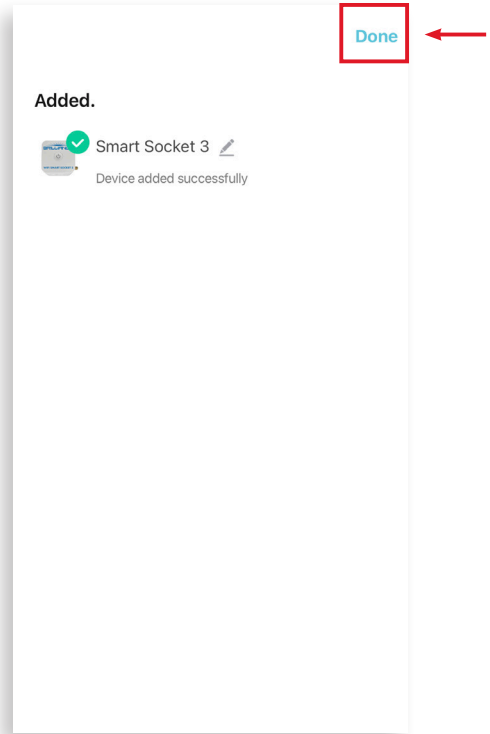

Quick Mode Set Up, Continued

5. The light in the power button of the Smart Socket 3.0 will begin to flash rapidly to indicate the device is in Quick Mode.

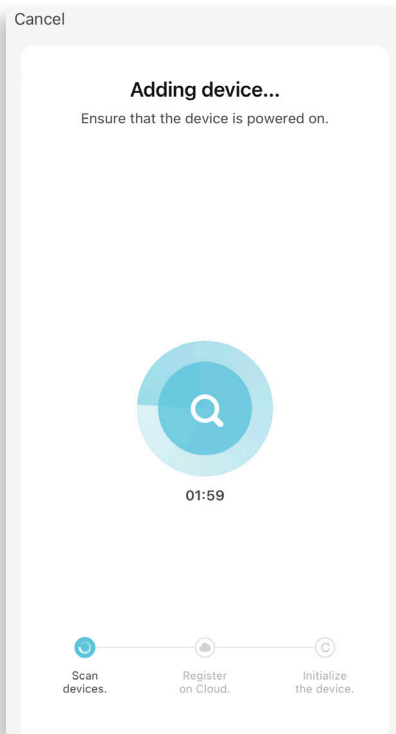

Tap the **Confirm indicator rapidly blink** button, and then tap **Next**.

7. When the device is connected, the Added screen is displayed. Tap the **Pencil icon** to rename the device, then tap **Done** to finish.

6. The Adding Device screen is displayed while the app connects to the Smart Socket.

NOTE: If Quick Mode Set Up does not connect, use the AP Mode Set Up instructions.
