

PROFESSIONAL TRAINING

At Brilliance, we are passionate about landscape lighting and bringing the best products to the marketplace. We take the education and correct implementation of landscape lighting very seriously. This is why we offer our very own landscape lighting training. Our training covers a vast range of topics from the basics of LED products, to lighting techniques and designing architectural plans.

Training can be held in-person, either onsite at your location or at our facility in Carefree, Arizona. We can also provide video training sessions remotely. If you are interested in training, contact your Brilliance sales representative. To find the sales rep nearest to you, visit brillianceled.com/contact.

NEW ARRIVALS

MODERN TIKI BOLLARD

- The Modern Tiki Bollard is a new take on our Olympic Bollard.
