

SAGUARO

G4 Bi-Pin Backlight

DESCRIPTION

The Saguaro Is a Mini Bollard as well as a low glow back light. This can be used in flowerbeds to provide back lighting on walls. It can also be used as a guiding marker for paths. The fixture uses refracting lighting in order to avoid hot spots. It is equipped with a 1.5 W micro G4 in 3000 Kelvin. It is available in copper, brass, black, stainless-steel and weathered brass. Use this unit when a thinner more discrete fixture is in order.
