

PHOTOCELL

DESCRIPTION

The Brilliance Photocell provides simple, technology-free astronomical timing for landscape lighting systems. When paired with a Brilliance Transformer, it automatically activates the lighting at dusk and deactivates it at dawn. The Photocell is included with all 75W transformers and is available separately for 150W, 300W, and 600W transformers.

PHOTOCELL FEATURES

- Automatic dusk-to-dawn operation
- Technology-free astronomical timing
- No programming or app required
- Simple, reliable light-sensitive control
- Included with 75W transformers
- Available separately for 150W, 300W, & 600W transformers

Part Number: **BRI-PHOTO-CELL**
